Lagarde: Gaming studies underway

It was business as usual forthe Bay St. Louis city council Tuesday night.

After a public forum, city zoning project manager Jules Lagarde updated the council on the progress of gaming/zoning study consultants Paul Buckhurst and Hawkins Stern.

study for a proposed annexation of the Cedar Point area ready for review by mid-September.

According to Lagarde, Stern said he would have the system

Lagarde also said Buckhurst intends to have the summary of workshop complete by Friday.

Concerning possible strate-

gies for the city's dealing with the gaming industry, Lagarde referred the council to a memorandum from Buckhurst, The memo gives three concepts. about dockside gambling in Hancock County.

The first concept assumes that dockside gambling will be. legal and present in Harrison County, with visitors/players divided between the major contenders in Hancock County (Bay Cove, Bay bridge, two

The second also assumes that gambling will be in Harrison County, but limits local sites to Bay Cove, the Bay bridge and Bayou Caddy.

The third concept assumes that gambling is rejected in Harrison County, and that a mix of large and smaller dockside gaming operations would occur in all the potential sites under discussion.

Lagarde told the council that

Eslick accused the council of silencing the voice of the city's residents by disbanding the Mayor's Advisory Committee. He made no mention that the

decision in June to disband the committee was a 3-2 vote, with Charles Scianna and Thriffiley opposing the move.

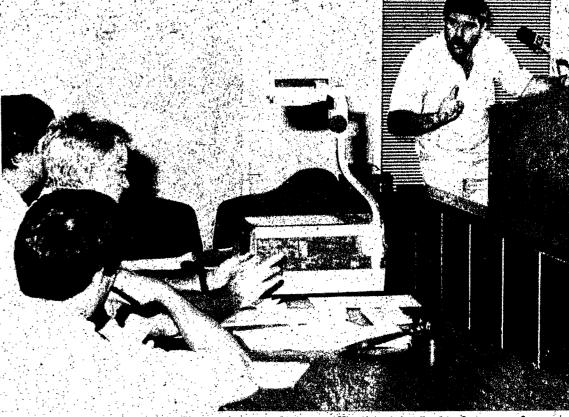

Speaking of the city's gaming feasibility/design guidelines/ zoning study and the consultants hired to conduct it, Eslick

Port & Harbor approves line change for Calgon

BY JACQUI COCHRAN

Hancock County Port and Harbor Commission gave approval for Calgon Carbon Corporation's effluent line to be re-routed two miles through the Port Bienville Industrial Park to an industrially permitted area of the Mullato Bayou.

Last month the Port and Harbor Commission petitioned the Mississippi State Department of Wildlife, Fisheries and Parks for a land designation change for an area of the Mulatto Bayou where the proposed Calgon pipeline would empty. The location is several miles from the present industrial usage site.

According to commission director Harold "Buz" Olsen, Calgon had a direct corridor to the

present industrial discharge area of the Mulatto Bayou, but "being a good neighbor" agreed to redirect the line to another area of the bayou in order to not sever newly purchased plots of land G.E. Plastics had earmarked for future expansion.

The proposed area is considered preservation land and required a recommendation by the Bureau of Marine Resources prior to the depart-

ment panel hearing. The July 21 panel hearing resulted in a post-ponement of the land designation change until August 28.

Hancock District takes advantage of soft market to decrease premiums

BY JACQUI COCHRAN

Hancock County School District will pay about \$8,000 less this year for property insurance than they did last year.

Agents from the three bidding insurers explained that the market was "soft" this year,

refering to the decrease in premiums reflected in the bids.

The board accepted the lowest bid of \$59,373 from Seal & Smith Insurance Agency Inc. of Picayune following comments from the three agents, all assuring the board of the reliability of the companies they individual-

ly represented. The other two bids came from Gulfport agencies, as it was mentioned these three bid against each other last year with differing results.

The wisdom of remaining with a carrier for "at least three years" was supported by each of the agents, citing better claims service with familiarity and better premium rates.

Superintendent Terrell Randolph said he would be happy to recommend that the district remain with the Picayune agency for three years following a guarantee by the agency that they remain with the same pre-

ST. ANN AND ST. JOHN NEWS

A thought for meditation from our pastor, Father John J. Kelly:

We truly believe in the Real Presence of Jesus Christ in the Eucharist, After the consecration of Mass, there is no longer bread and wine, but the glorified Body and Blood of Christ. We do not understand how this can be, but we believe it because the Lord has said it. True wisdom does not always judge by appearance, but by deeper truth which penetrates the meaning and reality. As we celebrate the Word of the Lord and the Sacrificial Meal of the Lord, let us pledge our loyalty to Christ's word.

"For the eyes of the Lord are intently watching all who live good lives, and He gives attention when they cry to Him. Psalms 34:15 TLB

How comforting is is, Father, to know that You watch over me. May I live confidently in a sense of Your presence. Amen.

"QUOTABLE QUOTES"

By Ellis C. Cuevas

A big celebration is planned for the last Saturday in October at Hancock Medical Center in Bay St. Louis involving the community and persons who were born at the Old Kings Daughter Hospital, Hancock General Hospital and Hancock Medical Center.

Charles Gray of the Hancock County Historical Socicty is a member of a committee, along with myself and several others, who are helping get things together for the big community celebration.

The Historical Society is in need of a photo of the Kings Daughter Hospital. It was located on Carroll Avenue for many years and may have been in another location in the Bay, too.

Gray is also trying to locate the exact date Kings Daughter Hospital came to Bay St. Louis. I know it was on Carroll Avenue in April, 1934, as I was born there, so there must be some folks around who were born there before me. I checked with my mother and she remembers it as being there for some time before I was born, Some of the old doctors' names, staff members' names

as well as volunteers' names are being sought. I plan on doing some searching through our archives at The Echo, but it would help to have some sort of a

starting date to work from in doing a good history on hospital care in Hancock County in this century. Persons with any information may call 467-8201 and

leave a message for Gray. He will return your call. The celebration at HMC will be a community celebra tion, and specifics on the events will be forthcoming.

You may want to remember that Saturday will be the big 'Fish Fry and Concert in the Park' at Bay City Hall beginning at 6 p.m., sponsored by the Bay St. Louis Business Association.

Music will be provided by one of the area's most popular groups, The Pat Murphy Band, and the Fish Fry will be under the watchful eye of J.D. (Big John) Rutherford and his staff of experienced chefs.

The concerts in the park have been brought back to life by the Bay St. Louis Business Association after an absence of many years.

A concert in the Bay St. Louis Park was very popular for many years, and I have been reading about them while doing some research for the Archives column.

Folks are asked to bring their dancing shoes in a report in the Bay Biz publication of the B.S.L.B.A. It may be a good idea to take your lawn chair along,

I hope to see you at the Fish Fry Concert in the Park' Saturday.

On Saturday the county's candidates for office will be bagging and bringing groceries to cars at the Jitney Jungle in Bay St. Louis as a fund-raiser for the March of Dimes, Hancock County chapter. All tips will be donated to the March of Dimes.

Organizers are Kitty Bourgeois and Ida Macvick, cochairmen, and they say the 40 would-be (and current) officeholders will man 30-minute shifts from 10 a.m. until 1 p.m. at Jitney's seven check-out stations.

While you shop Saturday, you may want to remember the March of Dimes.

Congressional survey results

A survey released by U.S. Representative Gene Taylor indicates that 88 percent of South Mississippians favor health care reform.

The survey reveals that South Mississippians are ready for a change in the nation's health care system," Taylor said. "And of course, following a close second, the people want the Administration and Congress to control spending to reduce the budget deficit.'

The health care question asked: While several proposals have been introduced to reform the health care system, which of the following statements best describes your views on the

The response was overwhelming. Fifty-one percent favor a complete overhaul. Thirty-seven percent favor substantial changes in the system. Nine percent support minor changes, while only three percent are satisfied with the current system.

"These comments and suggestions will certainly be helpful when I return to Washington after the August recess," Taylor said. "Many of these issues are coming up for votes soon and the input from constituents is greatly appreciated."

The survey, attached to Taylor's summer newsletter, was sent to 248,000 homes in the Fifth Congressional District. Responses to date total almost 5,000.

The survey also asked. respondents to list the issue they believed most important to them. "I wanted to give the people of South Mississippi a free hand in deciding the issues that affect them most," Taylor said. From the results, South Mississippians are most concerned with the budget deficit, drugs and crime, education, health care and the economy."

The blank lines were filled in as follows:

LETTERS TO THE EDITOR

Write gaming commissioner to express views, pro or con

To the Editor: I would like to take this opportunity to ask that all residents concerned about the effects of gaming/gambling in the Bay St. Louis area to consider writing to Mr. Royal Walker of the Mississippi Gaming Commission.

They should write in reference to the results of the recently held workshop conducted by the consultants hired by Bay St. Louis. These results showed a consensus opinion that traffic was the number one concern by each of the groups selected to participate in the forum.

If each person would write to the Mississippi Gaming Commission and express his concern about traffic around schools, churches, residential areas, day care facilities and retirement/ elderly care facilities I feel that this may be a way of controlling the number of ventures to be located within the city limits of Bay St. Louis.

I am not asking for an indictment against gaming/gambling, nor am I asking for an endorsement; I am asking for the citizens of all of Bay St. Louis, not just the downtown or waterfront residents, to express their concerns.

We have the high school on Blue Meadow Road and North Bay Elementary School on Dunbar, which will be directly and indirectly affected by the Bay Cove venture. We also have the Bay Middle School, which will be indirectly affected by any venture on the beach between the bridges in Bay St. Louis. We have many churches in Bay St.

Louis which will be affected by traffic through their area, particularly when services are being conducted:

Hancock County has voted to support gaming/gambling. We must realize that the venture is coming, but we must also express our concerns to the Mississippi Gaming Commissioner's office with respect to the affects that gaming/gambling may have on traffic patterns around one of our most valued resources, children.

I would also ask that if you have other concerns, that you express these to the commissioner in your letter. If you feel that gaming/gambling is good or is bad, that you express this opinion also; but I would ask that you do not try to whitewash the facts by writing only of the good or only of the bad in reference to gaming/gambling. Let us be realistic in our writ-

ings and attempt to do what we, the citizens, feel is best for Bay St. Louis.

I have talked to Mr. Walker a couple of times and he has indicated that the commission will judge each application for license on a case-by-case basis and judge them on their individual merits but without some input from the local community the commission may not know how each application affects our

Waveland residents commend Frilot

To the Editor: della an an Transfer deting confrontation : This morning a crew hired by the City of Waveland, wearing

Stella Frilot-Our Fair Mayor T-shirts,' poured concrete into a mold to construct a sorely needed abutment in the subdivision of Idlewood.

The concrete is curing even as these words are being written. This marks the end (hope-, with Sea Coast Echo readers fully) of a situation ongoing for over a year.

We are writing to publicly thank Waveland Mayor Stella Frilot for her efforts in assisting us as residents in the affected area. Her willingness to act in behalf of city residents is highly commendable.

She was physically present, radio in hand, city employees in tow, when the going got rocky, and stood firm against what we considered to be a substantially

because we feel that public praise is appropriate where public criticism has gone before.

The spirit of democracy demands that once the vote has been counted, all (even losers) rally behind the public choice.

Send students to school with the proper attitude

With September always comes the realization that the year is waning, time if flying, and it's time for school again. We can do little about the year and the time beyond striving to make every moment count, but school is a different proposition—we can make a differnece there.

At no time in recent history has a good education been so important; and at no time have the schools to provide it been in such jeopardy. Underpaid teachers are leaving the field in order to survive (both mentally and financially). Permissive and defensive parents are undermining attempts to enforce discipline; and school administrators are reeling from budget cuts and funding shortages. They also are having to do more with less."

Coast businesses and organizations sponsor numerous support activities that have been of great benefit to the local school systems, but their efforts alone are not enough—the realization of the importance of a good edu-

cation must come from the parents, who, in turn, must impress it upon their children.

Reading, writing, and arithmetic are no longer enough. A person considered educated 30 years ago, who has not kept up with the burgeoning advances in science and technology, might well be considered ignorant today. These same advances are the legacy of today's students, and they must be prepared to carry on their inheritance.

So, when you parents send your students off to school, equipped with the required supplies and the most-recent fad in clothing, take the time to send them off with one more thinga proper attitude, the understanding of the importance of a good education in order to become a productive citizen of our country instead of a burden.

Remember, parent or not, one way or another, the student you support today must someday support you! Wally Alston

No other public official in the state has the ability to touch a citizen's daily life so completely. In fact, every four years vot-

Okra, one of the favorite summer vegetables in our Southland, grows profusely throughout the hot summer months, even when cultivated by reluctant gardeners such as I.

Native to West Africa, okra is widely grown in tropical and sub-tropical countries, where the pod is known under the Bantu name "gumbo." It's quite a versatile vegetable as wellsteamed or boiled, fried. smothered, stewed, pickled or whatever you choose. And, what would our famed seafood gumbo be without okra's thickening qualities and unique

My grandmother used to advise us, "Eat more okra, it cools the blood and is good for you." And, she even followed the old Southern custom of cooking whole okra pods atop butter beans or field peas, only adding flavor to these vegetables, but also keeping in more of the vitamins and minerals.

Okra is tasty when simmered barely tender, then chilled and served with oil and vinegar, salt and pepper. It's also good braised or sauteed in bacon drippings (after you wash the pods and cut off the stems.) French-fried okra slices or "okra ovsters" with an almost oystery taste (hence the name): are also favorites and a delicious addition to the appetizer tray. And, for a soothing late

Seymour, who reported the next day to have received a letter notifying him of the meeting, said he felt the majority of the people present were against gill netting along the beaches, as is the majority of consti-tuents he has heard from on the

Seymour handed a resolution to Tom Van Devender, BMR chief of salt water fisheries, which he described as a combination of options 1 and 2.

"The resolution asks that if gill netting be allowed to continue, it be limited at a distance from the shoreline.

"I don't think anyone in this county is against commercial fishing, they just don't want it

along the beaches," he said. Seymour said the board had met with BMR prior to the hearing, and he was "sure his fellow supervisors would have been

there if they could have." -Option 2, BMR's idea, limits gill netting to 1,500 feet from the above stated area's shoreline; and

-Option 3, added after speaking with local fishermen, prohibits gill netting to 750 feet from the shoreline, except from May 15 to September 15, when the net distance would be increased to 1,200 feet from the shoreline.

BMR's recommendation. Gill added, will either be for no

change to the current law, or know good and well these peoone of the three options presented.

Jim Maness, a vocal opponent to gill net fishing, reported that he found the hearing "to be a farce.

'It was predetermined, by BMR, what they are going to do. "The only reason that hearng was held was because they (BMR) were forced (by state

realized-there are more oceanographers here on the Mississippi Gulf Coast than in any other place in the world... we have the very best meteorological and oceanographic support service in the world," Koehr

Chubb comes to SSC from the Defense Mapping Agency Hydrographic/Topographic Center in Washington, D.C. where he served as director. He was selected for promotion to flag rank on Jan. 3, 1991.

Chubb is a native of Cincinnati, Ohio. He holds a bachelor's degree concentrating in physics and oceanography from the U.S. Naval Academy and a master's degree in oceanography from the Graduate School of Oceanography, University of Washington.

The change of command ceremony is not prescribed specifically by U.S. Navy Regulations, but rather is an honored product of Naval tradition. It is a custom wholly naval without an equivalent counterpart in the Army or Air Force.

The heart of the ceremony is the formal reading of official orders by the relieving officer and the officer to be relieved. Command passes upon utterance by the relieving officer, "I relieve you, sir!" The officer being relieved responds, "I stand relieved!"

This simple procedure signifies the transfer of total responsibility, authority and accountability from one individual toanother individual.

The Naval Oceanography Command Headquarters is one of three U.S. Navy activities presently located at SSC: Components of what was to become the Command moved to the site in 1976, and the Command was officially created in 1978.

Today, it comprises nearly 3 000 officer, enlisted and civilian personnel located at some 60 locations worldwide. Its mission is to provide oceanographic, meteorological and mapping, charting and geodetic services to operating naval

N. American Championship fields 3 BWYC competitors

Three Bay-Waveland Yacht Club Optimist sailors competed in the North American Optimist Championship last weekend in Cancun, Mexico.

Marcus Eagan, Sanders Kane and Alan Uram sailed in the five-day competition, which was dominated by Argentineans.

Uram sailed to an eighth place finish overall, in a field of some 80 boats. Eagan and Kane finished 17th and 27th,

respectively.
"We sailed in a bay, which opened to the Caribbean," said Uram. "There was no wind, and a strong current.

"If you got a bad start, there was no way to catch up," added

Optimists are small, singlehanded dinghys. The class is open to children and teens up to age 15, although weight is a factor in some races.

The sailors from Argentina and Brazil are traditionally of

navigate better in some conditions. They have dominated the European and World competitions in recent years, said Nancy Uram

Handily taking first place was Ramon Oliden, 14, of Argentina, who accumulated no points during the five races, indicating all first place finishes.

Oliden's family is one of simple means, said Ellen Kane, and the dedicated sailor rides a bus four hours each day from his inland home to practice on the water. The discipline will pay off, she said, as opportuni-ties open up to him as an inter-

national winner. The boys termed the sportsmanship "good" and found the Spanish speaking sailors also spoke English quite well.

The temperature averaged over 95 degrees each day, making for a hot visit for sailors and

BWYC takes second at Knost Regatta

The Bay-Waveland Yacht Club placed a close second in the Knost Regatta last weekend in Pass Christian.

The BWYC team ended with a total of 10 points in the ladies championship regatta, while Buccaneer Yacht Club of Mobile placed first overall with 8% points. Fort Walton Yacht Club of Florida placed third.

In the first race Saturday afternoon, the Bay-Waveland team sailed to a second place finish with Page Murphy as skipper, Ellen Eagan and Mallory Mestayer as crew, Southern Yacht Club of New Orleans captured first.

In the second race the same day, Eagan skippered while

Judy McKinney and Konnie Merrigan were crew as the team finished sixth. Buccaneer Yacht Club took first place with Amy Chapman Kleinschrodt, a former Bay-Waveland sailor, as

The last race Sunday morning ended with Fort Walton in first and Bay-Waveland finishing second. Mestayer skippered, and Murphy and McKinney crewed for the BWYC team.

Congratulations, Mike.

Hernan Cowan reports that from the Ladner Pier—the 'se habla espanol' mackerel started showing up last weekflounders are running about 2 pounds-jacks are starting to show up chasing schools of mullet-crabs are plentiful.

Best baits: For flounder, dead shrimp and live minnow; for jacks, live croaker or live pogie, about 3 to 4 inches long, 18 inches under a cork; for mackerel, live shrimp or glass minnows, 18 to 24 inches under a cork; for crabs, just about anything dead.

There are several fishing piers in Hancock County that

Pier in Waveland has a fee and offers such things as running

water and other goodies. Their rates are \$3 per person per day or \$12 per family for a yearly permit. The yearly permit includes man and wife, children and grandchildren under 18.

This is a good deal and worth checking out. The other fishing piers are free to the public.

LaFrance fish camp says that there are quite a few flounders to be caught in and around Herron Bay. The flat fish are 'pigging out' on live shrimp and minnows.

Live shrimp are once again plentiful and are available at Bordages fish camp in Lakeshore and at LaFrance fish camp in Ansley.

The BMR hearing on the proposed ban of gill nets in Hancock County was held Tuesday. night. Some very interesting facts were brought up at this meeting.

In 1990 licenses were issued to 239 gill netters. Their nets covered 286,000 feet of water or 54.2 miles of shoreline.

In 1991 licenses were issued to 192 gill netters. Their nets covered 232,800 feet of water or 44.1 miles of shoreline. There are approximately 57 miles of shoreline in Mississippi.

There is no limit on the amount of speckled trout that a gill netter can catch.

There is a quota of 35,000 pounds on the amount of red fish that a gill netter can catch. This quota depends on the voluntary report of seafood processors to tell BMR when the

offer family fun. The Ladner 35,000 pound limit, has been reached by gill netters. (I have an ice skating rink at the end of the American Legion Pier I would like to sell to BMR.)

Gill net fishermen have paid \$9,800 in license fees for this year, Sportfishermen have paid \$795,000 in license fees in 1991.

National Marine Fisheries estimated dollar contribution to the Mississippi economy by sportfishermen last year was \$740 million. Gill net contribution was at least \$9,800. On to another subject: I am hearing an increasing number of people on the seawall talk about the rumos that BMR will soon place a size and creel limit on flounders. I will keep you informed on this topic as soon as I am able to get some solid information.

. This week's wonderful wise words: There is no size or creel limit on bureaucrats... yet. Sie 'em, turtle.

Striped bass released by GCRL

Approximately 152,000 striped bass were released this summer into the Pascagoula and Pearl rivers by Gulf Coast Research Laboratory fisheries personnel, according to project eader Larry Nicholson.

Another 20,000 fish remain. in the laboratory's intensive culture facility to be tagged and released in the fall as part of stocking projects funded by the U.S. Fish and Wildlife Service and the National Marine Fisheries Service.

Since 1967, GCRL has been involved in programs to restore the striped bass population in Mississippi's coastal tributaries.

What gets me is that the 131 stalks grew to six feet in height and produced six-inch-long ears of corn before anyone started wondering what the heck was happening.

The same edition that solved the mystery of who planted the corn also had this doozy of an

It seems there is little on the market for those heifers whose hooves are in need of healing. So, some guy from Canada started selling bovine orthopedic shoes a couple of years ago after customers at his clothing store started buying black rubber boots for livestock with hoof injuries or disease.

Let's hear it for that entrepreneurial spirit! Hip hip hu-

And now, from the "This Land is Your Land?" file:

John Hurst, 28, tried to find his wife at the Kennedy estate. in Palm Beach, Fla., last week. Seems he thought he owned the place and had left his wife

The Associated Press story said Hurst was disoriented and claimed to be operating on the belief that he had won the Florida lottery and now had possession of the controversial Kennedy compound. This belief was planted in Hurst's discriented brain by his friends, he said. (Some friends!)

Here's an item that will make your heart go thump-thump: Some poor fellow in Portland, Ore., received the wrong heart during a transplant operation. The doctors had no explanation.

The man did eventually get the right organ, but he had to go: through two operations to receive one heart.

I'm glad I'm not a heart

transplant patient in Oregon. And last, but certainly

strangest in this little potpourri of news tidbits, is the account of a young man whose tongue got stuck to the freezer.

In Altoona, Pa. (that makes two items from Pennsylvania; I wonder if there's a connection between that state and strange occurrences?), 14-year-old Duane Della'stuck his tongue to the freezer when he bent over to yell at his two-year-old niece, who was trying to climb into the refrigerator.

The girl got the phone for him, and he dialed 911. Although the rescuers couldn't understand what he was saying Gee, I wonder why?), they finally went to his house and poured warm water on his tongue.

Moral of the story: Take your head out of the freezer before you yell at someone — or at least have a cup of warm water on hand.

Gulf Coast Writers Association

Today's Gulf Coast Writers Association's speaker meeting will be highlighted by Margaret Poarch, whose topic will be Writers on Writing.' The meeting begins at 7 p.m. in the auditorium of William Carey College, 1856 Beach Dr., Gulfport.

Poarch has drawn on her extensive background in teaching creative writing to glean insights on the art of writing from both the famous and the infamous.

Poarch has taught creative writing to all ages. She has also taught poetry in the public school gifted programs and she is currently teaching creative writing in Gulfport's Community Educa-

She has won many competition awards for her own writing and published both poetry and short stories. She has a novel ready for publication and has even, for a time, taught auto mechanics. She has traveled extensively and speaks several languages.

GCWA invites all writers and any future writers to this interesting evening. GCWA meets 7 p.m. the fourth Thursday of every month at the college and welcomes anyone interested in writing.

When school bells ring this fall, more than 600 Mississippi high school students will take part in a new curriculum designed to teach them the facts of life—as they relate to agriculture that is,

Hancock High is among 40 Mississippi schools piloting courses in agriscience—a course designed to mix agriculture and science and create an awareness of agriculture's importance to everyday life. The course is a first for Mississippi schools.

Efforts are underway to get the course approved for acceptance as a science credit; something traditional agriculture classes can't offer. Students also will get the unique oppor-

tunity to see, touch and feel how science and agriculture relate. Vocational agriculture instructors will teach the new curriculum, and with substantial assistance from Mississippi State University, they are

ready for the challenge. The teachers recently com-

pleted two weeks of intensive in-service training at MSU. With coordination from the agricultural and extension education department, and assistance from the Division of Agriculture, Forestry and Veterinary Medicine, teachers reviewed basic scientific principles, learned that science can be fun, and were armed with the curriculum materials needed to make the program a success.

In-service training included learning to apply scientific principles to the agricultural topics teachers were already familiar with. Teaching horticulture became a lesson in biology. Plant and animal breeding was a simpler term for genetics. Soil analysis made for a good chemistry lesson, and forestry is just botany after all.

Making science fun and relating it to agriculture is the planned key to success for the

Dr. Worth Haynes, a bureau director for the State Department of Education's Office of Vocational, Technical and Adult Education, referred to the 1991 Carl Perkins Applied Technology for Vocational Education Act as the stimulus for the development of the agriscience curriculum.

"The new act calls for making the United States more competitive in the world economy, Haynes said. "In Mississippi, a large percent of income is derived from agriculture and ag products. With this in mind, we know citizens need to understand the importance of agriculture."

Campaign encourages immunizations

The Mississippi Department of Human Services' Division of Aging and Adult Services is participating in a nationwide campaign to improve personal health by encouraging preventive health behaviors. The campaign's first topic, "immuniza-tion," is one of many subjects to

Illnesses and deaths from childhood diseases have declined in recent years due to immunizations. However, according to Aging and Adult Services, there remains a problem with some groups being under-immunized.

"When we promote preven-

for themselves and their grandchildren," said Billie Marshall, director of Aging and Adult Services.
"All adults need vaccinations

to protect them against tetanus (lockjaw), but Mississippians 60 and older and those with certain chronic diseases need to be. immunized against the flu and pneumonia. Because many of our older citizens have grandchildren in their care, we espe-cially need to inform them of childhood immunizations."

The common diseases children need to be immunized against are:

-Diphtheria: Dangerous tive health measures, we must and highly contagious and can stress to the state's elderly the importance of immunizations damage to muscles and death.

-Pertussis (Whooping Cough: Affects the linings of the air passages, causes coughing and noisy intake of breath. Majority of the cases occur in children under the age of five.

-Polio: Attacks the central

nervous system and can cause paralysis. -Measles and Rubella: Measles can lead to complications in

the respiratory and central nervous system, including bronchitis and ear infections. Rubella (German measles) is very dangerous for pregnant women because it can cause multiple birth defects in the unborn child.
